

Who can come to us?

- Parents
- School children and young people
- Teachers, school management, other school staff

This is important to us:

Willingness:

If you want, you can talk to us. You do not have to.

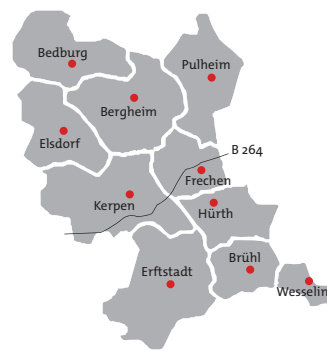

Free of charge:

You don't have to pay us **anything**.

Confidentiality:

We can't tell anyone what you told us.

You decide who we can tell what.

Where can you find us?

**Your child is going to school.
Maybe there are problems.**

Your child has problems in learning?
In reading, writing or arithmetic?

Your child can't listen well?

Your child has problems with other
children or adults?

Your child is afraid of school?

**The teacher can help with many
problems.**

Sometimes this is not enough.
You want more help?

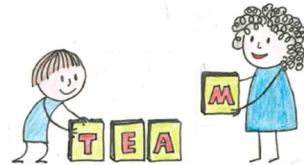

**Then ask us
School psychologists!**

We work with schools and parents.

What can we do?

- Find answers together
- Gather new ideas together
- Solve problems together

Our goal:

Your child should feel good and be
able to learn well.

What do we do?

We talk to you and your child.
A translator can be part of the
conversation.

Maybe we watch your child at school.
We look closely:

- How is your child feeling?
- Why does s/he have
problems?
- What is he capable of?
- What does he have to learn?
